Remember, a commentator at the WEF Davos24 some ten days ago, asked something to the extent, "How to avoid an undesired person being elected President?"

No names were named, but it was obvious, the undesired person for the globalist crowd was the non-globalist, nationalist, "Make America Great Again" (MAGA), former President Donald Trump.

Everybody knows, he is the anti-globalist elephant in a room of a globalist cabal. Perhaps the answer to the question was prepared in a closed-door session – and is unfolding rather fast, as we follow the happenings at the Texas-Mexican border.

Is there a false flag in the making?

If we believe the mainstream media, "Republican" Governor Greg Abbott from Texas sent the State National Guard to defend the Texan 2,000 km (1,200 miles) border with Mexico. Did he really?

Unlikely. He sent his National Guard only to defend the official border entry at Eagle Pass and maybe one or two others along the 2,000 km long border.

The influx of illegal Mexicans into Texas is not new. Abbott could have started with border protection already in 2021 – a record year of illegal Central American immigrants (not just Mexicans) into the US via Texas. That record was exceeded in 2023 with as many as 2.5 million illegal immigrants (official stats) into Texas. See [this](#).

Unofficial figures are quoted as high as 6 million.

In January 2024, “Democrat” President Biden contradicts “Republican” Governor Abbott and requests border control agents to access a river front park, near Eagle Pass, a crucial border crossing point, now supposedly being guarded by razor wires built by Texas National Guards, and by the Texan guards themselves. Biden wants this “crucial border crossing park” being controlled by federal Border Control Agents. Biden is known to be lax with immigration.

“Illegal immigrants” love President Biden, as can be seen in the “shadow crossing” 40-min. video below.

Is this a real clash between Texas and the US National Government? Or a fake clash?

Ms. Linda, from WGON TV News, says there are “strange things” going on at the Texan border. She asked, *“Are we being played about the Texas border?”*

To make her point, she shows a brief video clip, depicting just about half a mile (800 m) of fenced border (called the Trump-fence), showing three unprotected border-crossings. The entire 2000 km Texas-Mexico border has 28 official (protected) crossings – and what it looks like maybe up to hundred gateless openings in the wall. See video below.

Another video by two investigative journalists following the migration route all the way to Colombia, where mafias are organizing mass-migration from South and Central America being funded apparently by the UN system, to Mexico and through the Texan border, where the news cameras are focusing only on the official border crossings, but not on the unprotected open doors in the wall. See this 40-min video.

The video commentator at about 00:37:00 says that

“The United States is in a state of undeclared war. The United Nations and associated organizations are actively working to dissolve the American Republic by an industrial scale weaponized migration program”.... “Cartels control the southern border. And every day thousands of military age young men enter the Southern border.”

The video portrays a picture of the 17 UN Sustainable Development Goals (SDG) with the symbol of UN Agenda 2030. You may recall that the WEF’s Great Reset and UN Agenda 2030 go hand in hand, and that in 2019, Klaus Schwab, WEF Chairman and CEO signed an illegal contract with Antonio Guterres, UN Secretary General, on a Cooperation Agreement.

The video is accompanied by a text box giving more details on UN and associated organizations that provided help for the flood of destabilizing immigration to the US.

Does Governor Abbott not know about what is going on at the Texan border?

Mr. Abbott is a WEFer. He is closely linked to Klaus Schwab and the WEF. It is, therefore, likely that rather than being in a clash, Abbott and Biden work together to destabilize the US, bringing about a crisis that could well incite a civil war.

This would be reason enough for the Biden Administration to declare Martial Law – and under Martial Law, the US Constitution allows suspension of Presidential elections.

It is also telling that this happens just a few days after closing of WEF Davos24, where such matters were likely discussed behind closed-doors.

Suspension of elections – wouldn't that be the perfect answer to the question asked during one of the more than 100 WEF meetings, *"What can we do to avoid that the wrong person is elected President?"*

While the border clash, the migration crisis is real for the American people, the apparent confrontation between Governor Abbott and President Biden smells more like a "false flag".

The Texas Government under agreements with other governors is quietly transporting illegals to other US States.

The WEF and its globalist elite cohorts cannot allow a nationalist President to take over, as would be Donald Trump, interrupting Agenda 2030 and the Great Reset. They need a Globalist government – à la Biden, or maybe a come-back Barack Obama, or even Michelle Obama – to carry the diabolical globalist agenda through. And that much faster than 2030.

The Reset's / UN Agenda 2030 principal goal, population reduction, is going on – through the experimental" covid vaxxes, slowly over years, sudden deaths, turbo cancers, reducing auto-immune systems, drastically lowering fertility and more.

But what still needs to be put in place for total control of the survivors – the transhumans, cyborgs and robots – is the perfect slave-yard through full digitization, AI, programmable Central Bank Digital Currency (CBDC); in brief, the Fourth Industrial Revolution.

A civil war in the US would have devastating consequences not only for the people of the United States, but it would also have disruptive and destructive consequences throughout the western world.

And as if the ruling elite would know about the plot that could result in civil war, the US insurance companies have changed their **terms as of 1 January 2024, no longer covering damages caused by "War, Riot, or Insurrection, declared or non-declared"**. See video below.

This may well be the plan behind the WEF's theme "Rebuilding Trust".

It may also be the WEF's last effort to rebuild trust, since before such planned unrest occurs, people in the United States may wake up to *"being played about the Texas border"*, as so adroitly expressed by Linda, the commentator of WGON TV News. And it may also be the end of the WEF – and 8 billion people around the world would be cheering.
